

POLLEN

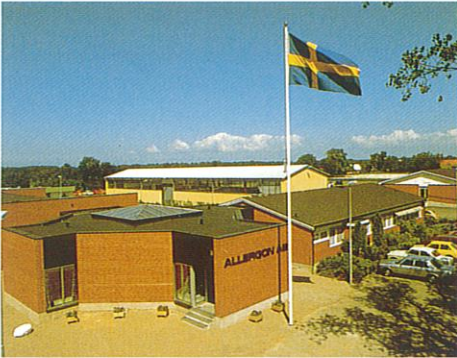

RIFF COME FROM SWEDEN.

THE POLLEN RIFF CONTAINS POLLEN EXTRACT BY UNIQUE STANDARDIZED procedure.

The pollen extract which is produced by Allergon AB (a Pharmacia company) who is a world leader in the field of production of various pollen components.

A standardized mixture of pollen from dicotyledones, monocotyledones and conifers are used. Natural allergens are removed with the LATEST ENZYMATIC PROCESS AVAILABLE TO ENSURE AN ESSENTIALLY ALLERGENFREE PRODUCT. The enzymatic process has got distinct advantages compared with the usual microbiological method. The most important is the higher efficiency to break down allergen molecules to amino acids and peptides. Every batch of the pollen extract contained with pollen riff is analysed by the RAST method, developed by Pharmacia of Sweden, to ensure highest quality and to check that all allergens have been broken down.

Besides the pollen extract the product also contains specially prepared pollen fibre from the exine, intine and cytoplasm of selected monocotyledone pollen grinded to a fine powder. Also this ingredient has been treated enzymatically to break down allergens.

The final product is spraydried together with a specially selected carrier to inhibit the hygroscopic nature of the pollen extract. Further it is granulated, so that anyone can eat it with relish simply.

POLLEN EXTRACT + POLLEN FIBRE × GRANULE = POLLEN RIFF.

The indications of the pollen extract contained with pollen Riff in Sweden is admitted as follows:

INDICATIONS:

- Improved performance in young and elderly, particularly in sports people and convalescent patients.
- Stimulating.

Elements (most important ones):

B, Cl, I, Na, K, Mg, Ca, Sc, Ti, Mn, Fe, Co, Ni, Cu, Zn, Rb, N.P, S, and Si.

Organic substances in Pollen Riff:

Carbohydrates
Sporopollenines
Nitrogenous compounds
aminoacids
proteins
cofactors

- Diminished mental capacities due to age.
- Reduced resistance.
- Strengthening particular in connection with infections and inflammations.

nucleic acids

alkaloids

Pigment

carotenoids

flavonoids

pigment from plants

Plant hormones with growth regulatory effect

Organic acids, esters and other lipid soluble substances

(e.g. phytosterols)

POLLEN IS A NATURAL SOURCE OF VITAL SUBSTANCES.

Pollen Riff contains all the vital substances found in other pollen products, but in a higher concentration and quality.

Pine

Corn

Dandelion

POLLEN RIFF COME FROM SWEDEN.

For several thousands of years pollen has been known to possess great healing power. It has been used as a food supplement and a natural remedy to support the body in several disease conditions. The science of today has confirmed the health promoting effects of pollen using various forms of pollen extracts. Several hundred scientific publications demonstrate the usefulness of pollen extracts in situations of stress, cardio-vascular conditions, prostatitis, rheumatoid conditions, etc. Pollen also increases endurance and improves mental alertness. Specially the examples improved remarkably the disorder of hormone, instability of emotion, allergy physical constitution etc., by using pollen, which were brought by the increase of stress or sudden change of living environment of the modern person, have been increased.

DISTRIBUTED BY
BEAUTY POLLEN CO. LTD
Kawamura Bldg. No.21-6, 3-chome Akasaka
Minatoku Tokyo Japan
